

A week program in the 2nd most innovative country in the world

The Open Innovation Learning Week in Sweden, organised by CISB in partnership with ANPEI, is a mission that offers an opportunity for Brazilian community to interact with some of the main Swedish innovation actors from many areas to understand what is behind Sweden's success.

Through the week, participants will meet representatives from Industry, Government and Academia to discuss experience, share knowledge about innovation, cooperation model and also discuss possibilities of collaboration.

Innovative Sweden

A strong culture of collaborative innovation has propelled Sweden to the forefront of technological development. Thanks to a rich supply of raw materials in combination with pioneering inventions, which are used all over the world, like the steam engine, the ball bearing, the safety match, the zipper and others.

Sweden's long history of ambitions research and development programs seems to indicate an insatiable thirst for knowledge. But it is not only about having clever ideas; it is also about turning them into commercial success. Many Swedish companies are good examples of this e.g.; Ericsson, Electrolux, Tetrapak, IKEA, H&M, Scania, Saab and Volvo.

Swedes are some of the world's fastest people at adapting to new trends and ideas. For instance, the concept of Innovation Systems and well-known Science Parks were firstly conceived and implemented in Sweden. Furthermore, Stockholm is the second technology hub with the highest number of unicorns per capita. Some examples are: Skype, Spotify, iZettle, Mojang and others.

With collaboration with Academia, Industry and Government new sustainable dynamic innovation systems will be developed.

In this context this mission aims to continue on building bridges between Brazil and Sweden in a long term perspective.

Main Areas and Topics

- Aeronautics
- Autonomous Systems
- Bioeconomy
- Information, Communication & Technology (ICT)
- Materials & Manufacturing
- Excellence Centres
- Entrepreneurship

Cities

Stockholm, Norrköping, Linköping and Gothenburg

Participants

Brazilian executives particularly CTO's, R&D managers and Innovation managers.

Point of contact

Eduardo Nascimento
eduardo.nascimento@cisb.org.br
Phone: 55 11 4314-9466

Swedish Partners

Chalmers University of Technology (CTH)
Royal Institute of Technology (KTH)
Linköping University (LiU)

Review 5

Preliminary Program

Monday, November 5, Stockholm

- Free cultural program
- Ice breaker: interaction between participants and alignment meeting
- Brazil-Sweden Cooperation on Brazilian government perspective, Embassy of Brazil in Stockholm

Tuesday, November 6, Stockholm

- Swedish Innovation System, SISP
- SISP and ANPROTEC Partnership, SISP
- Sweden's Innovation Agency, VINNOVA
- Strategic Innovation Programme: INNOVAIR
- Optical Networks Laboratory, KTH Onlab
- Fiber Optic Sensors and Systems, RISE Acreo

Wednesday, November 7, Stockholm, Norrköping and Linköping

- Innovation Agency, KTH
- Strategic Innovation Programme: BIOINNOVATION
 - Tresearch Wallenberg Science Centre, KTH
- Solar Energy Initiative, KTH
- Imaging and Visualization in Life Science, LiU
- A successful spin-off case in visualization, Sectra AB
- Tour at sustainable city: Urban living Vallastaden

Thursday, November 8, Linköping

- Saab AB:
 - International Collaboration with Brazil
 - FCAS (Future Combat Air Systems)
 - Saab Ventures
 - Image processing and spin-offs
- Industrial PhD: Industry and University Perspective, LiU
- CDIO framework for engineering education, LiU
- Wallenberg Autonomous and Software Program, LiU
- Linköping Center for Sensor Informatics and Control, LiU

Friday, November 9, Gothenburg

- Lindholmen Science Park
 - Test Site Sweden: ElectriCity and DriveMe
 - SAFER: AstaZero
 - Security Arena: HERO - Harmonised eCall European Pilot
- How do we work with industry, CTH
- Strategic Innovation Programme: LIGHTer Arena
- Automation and Additive Manufacturing, Swerea IVF
- Lab Visits, Swerea IVF

Facts

Date: November 5-9, 2018

Investment

The investment to participate is 5,500 BRL.

- 10% discount for members of ABIPTI, ABPI, ANPEI, Anprotec and ASPI.

This includes:

- Participation in all visits, seminars and lectures
- Monitoring of specialized staff during all activities
- Land transportation for all visits
- Local services such as lunches, coffee

Does not include:

- Airline tickets (round-trip Brazil-Sweden)
- Accommodation
- Travel insurance
- Dinner
- Other expenses (taxi, internet etc)

Language: English

Enrollments

Enrollments in this mission can be made in

www.cisb.org.br/oilw

Ps: The number of participants is limited in order to guarantee the quality of the program.

Required documentation

Valid passport for at least 6 (six) months from the date of travel and travel insurance.

Brazilians do not need VISA to enter Sweden

Disclaimer

The program can be subject to changes in the schedule to optimize the chaining of events and, eventually, better match resources availability. Current content is not expected to be affected.
