

ABIMAQ

Brazilian Machinery Builder's Association

The Brazilian Machinery Builder's Association

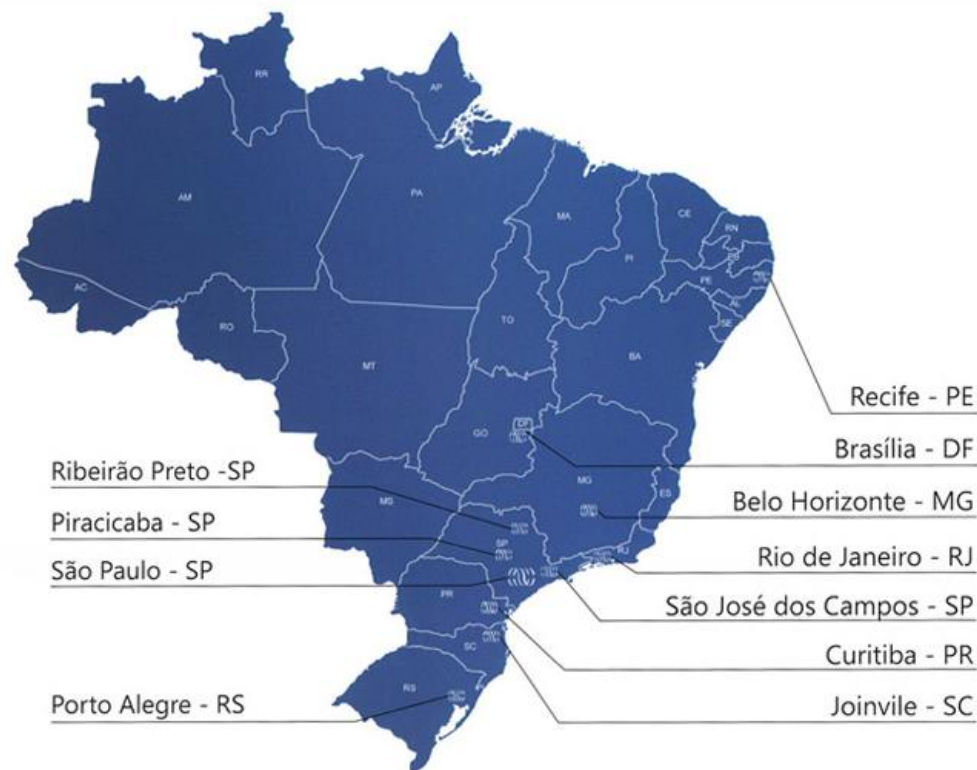

Founded in 1975, ABIMAQ - Brazilian Machinery Manufacturers Builders' Association - is one of the most important entities in the Brazilian industrial sector.

Our mission:

ABIMAQ is a representative entity of the strategic Brazilian machinery and equipment Industry, prioritizing the national interests against those pertaining to sectors and the collectives against the individual ones. Our Mission is, while acting in an independent way, to promote the sustainable development in the sector, through political-institutional products, services and acts that contribute to:

- systemic and enterprise competitiveness;
- finance production and trade; and
- promote the growth of business in the national and international markets

- ✓ **ABIMAQ represents around 6,200 Brazilian companies.**
- ✓ **ABIMAQ has approximately 1,500 associated companies.**
- ✓ **Headquartered in São Paulo.**
- ✓ **Regional offices in 9 cities and one office in Brasília (Federal District).**

The Sectorial Chambers

Our approximately 1.500 associated companies are distributed in 24 Sectorial Chambers (CS), forming a total of 26 segments, according to the material, type and purpose of their products.

Through our Sectorial Chambers and Regional offices, the companies have the opportunity to know and participate of the actions promoted by ABIMAQ.

The Sectorial Chambers

CSAG - Sectorial Chamber for
Compressed Air and Gases

CSQI - Sectorial Chamber for
Quality Control

CSMAM - Sectorial Chamber for
Equipment for Moving and
Storing Materials

CSCM - Sectorial Chamber for
Machines and Equipment for
Cement and Mining

CSVI - Sectorial Chamber for
Industrial Valves

The Sectorial Chambers

CSMIAFRI - Sectorial Chamber for
Food, Pharmaceutical and
Industrial Refrigeration

CSEN - Sectorial Chamber for
Marine and Offshore Equipment

CSGIN - Sectorial Chamber for
Gymnastic Equipment

CSTM - Sectorial Chamber for
Mechanical Transmission

CSEI - Sectorial Chamber for
Irrigation Equipment

The Sectorial Chambers

CSHPA - Sectorial Chamber for
Hydraulic, Pneumatic and Industrial
Automation Equipment

CSMGG - Sectorial Chamber for
Internal Combustion Motors and
Generator Groups

CSFEI - Sectorial Chamber for
Industrial Furnaces and
Kilns

CSMIA - Sectorial Chamber for
Agriculture Machines and
Implements

CSBM - Sectorial Chamber for
Pumps and Motor Pumps

The Sectorial Chambers

CSMEM - Sectorial Chamber for
**Machines and Equipment for
Wood**

CSMR - Sectorial Chamber for
Highway Machines

CSVED - Sectorial Chamber for
Seals Manufacturers

CSMAT - Sectorial Chamber for
Textile Machines and Accessories

CSMF - Sectorial Chamber for
**Tool Machines and Integrated
Manufacturing Systems**

The Sectorial Chambers

CSPEP - Sectorial Chamber for
Projects and Heavy Equipments

CSFM - Sectorial Chamber for
Tool and Modeling Shops

CSMAIP - Sectorial Chamber for
Machines and Accessories for the
Plastics Industry

CSMEG - Sectorial Chamber for
Printing Machines and Equipment

SINDESAM
Basic and Environmental
Sanitation

The Sectorial Chambers

CSHPA - Sectorial Chamber for
Hydraulic, Pneumatic and Industrial
Automation Equipment

CSHPA - Abimaq brings together companies that holds design technology, selection and / or production of universal application components and / or specific to the installation of industrial automation equipment or production lines, in discrete or continuous process systems, as well as manufacturers of hydraulic components, pneumatic, mechanical, electromechanical, and the like.

The sector comprises products and diverse range of complex services that interact with all other industry sectors such as: automation of units for assembly, painting and measuring process systems in the automotive industry, handling and positioning of materials in lines manufacturing, loading, unloading and transfer of parts between machines, automation of continuous processes in the chemical, food, steel, etc.. feeding and dosing of raw materials, among others.

IPDMAQ – The innovation Agency

The Institute for Research and Technological Development for the Machinery and Equipment Industry (IPDMAQ) works with the aim of guiding companies in the capital goods sector on the preparation process for innovative projects and bringing them in closer proximity with institutions that support the country's industrial modernization.
